Corvallis Times: Hundreds of people in the Willamette valley remember E. P. Coener, who several years taught writing schools throughout the valley. He is now at Redding, California, and the thing that calls attention to him is that he has just struck a rich gold mine in that vicinity. Three years ago he struck a "pocket" in the same neighborhood, from which he took $6,000 in gold in a few weeks.

The Salem Journal claims that the pupils at the Chemawa Indian school are being starved by the superintendent. An investigation of the charges should be promptly made.

J. W. Cook, superintendent of the Bohemia Gold Milling & Mining Co., came in from the mines Monday he says his mine is working its regular force of men, and that Bohemia presents a very encouraging appearance. We learn that this mine is in a very prosperous condition, and one which is always ready to meet any financial demands of its contracting. Mr. Cook has been attending to business this week and expects soon to go to California and return in the spring.

TO A CHICAGO SYNDICATE.

The Annie Mine, in the Bohemia District, Sold.

The Annie mine, in the Bohemia district, which has been shut down during the past year, and which went into Receiver F. S. Younger's hands nearly a year ago, has been sold to a Chicago syndicate. The Annie is considered to be the most extensive quartz mine in that district and contains a large amount of free-milling ore. It is not known what the syndicate's intentions are, but it is believed they will expend a large amount of money in development work before putting the mine in operation. The sale awaits confornation of the court soon to convene at Roseburg. There are four mills on very rich ledges in Bohemia and there is an indication of Bohemia becoming a prosperous mining camp with a large working force next spring.

R. J. Nokes, who suicided last week was not a german but American born. He had talked of suicide some time but his son thought he would not attempt to carry out the act. He was an old soldier and formerly an inmate of the soldier's home at Leavenworth Kansas. Mr. John Nokes asks us to extend thanks to those who kindly aided in the last sad rights of the departed. Elder James Hummer preached the funeral sermon.

Uncle Johnie Currin has lately piped the water from a mountain spring down to his house and now enjoys the luxury of pure water right at his house. South Lane has thousands of the finest springs in the world and will ere long become the garden spot of the Pacific slope.

Charles Sears has a nice home place—160 acres homestead and 90 acres railroad land. We had the pleasure of walking over it last week. Nearly the entire 250 acres are in fine fix for grain and pasture. After slashing Mr. Sears has kept 70 head of goats, which have kept all the sprouts down and the ranch is the cleanest we have ever seen. Mr. Sears considers his goats of more value in keeping his ranch clean than two men employed all the time could possibly be. While Mr. Sears has no sprouts on his ground, there is a place adjoining it, where goats have not run, that the second growth is worse to clear off now than the first. Goats are very valuable for their increase, for their fleece, and for keeping the brush from accumulating on the ranch. There should be thousands of goats kept in south Lane.

Afternoon Teas.

Flit Hartwell in her last syndicate article says: "I don't recommend any special brand of tea for afternoon four o'clocks. I do, however, know all about the best tea to take at night. Parks' Tea will certainly clear your complexion and purify your blood. You will be surprised at the improvement if you take a cup of Parks' Tea each night." For sale by J. A. Benson.

Mrs. W. B. Having read about Chamberlain's Colic, Cholera and Diarrhœa Remedy, she concluded to try it. She found it always gave prompt relief. It was seldom necessary to give the second dose. "It has not only saved us lots of worry and time," she says, "but also doctor bills. It is my opinion that every family should have a bottle of this remedy in the house." For sale by J. A. Benson Cottage Grove. Joe Lyons, Drain.

SPECIAL EXERCISES.—The exercises at the Cumberland Presbyterian church last evening under the auspices of the Ladies Missionary society and the Junior Endeavor society was a most pleasing and interesting affair. John Sears has filed a homestead claim on 65 acres of splendid land about two and a half miles north east of Lemati, located beween the donation claim of John Sears—the home of Mr. Sears for the last 42 years, and the nice mountain home of Charles Sears. It will make a lovely home and we congratulate Mr. and Mrs. Sears in their good fortune.

Say, why don't you try Dewitt's Little Early risers? These little pills cure headache, indigestion and constipation. They're small, but do the work. J. P. Currin.

REVS. WOOLEY AND SHACKLET.—Thursday's Albany Democrat: Revs C. A. Wooley, of Fairmount, and R. B. Shacklet, of Eugene, were guests of Rev. W. V. McGee last evening. Mr. Wooley preached to a good audience at the Cumberland Presbyterian church at 7:30 and baptized Mr. and Mrs. McGee's infant child. Like Hannah of Bible times they lent their daughter to the Lord as long as she lives. Messrs Wooley and Shacklet are members of the board of trustees of Mineral Springs Seminary at Sodaville. They have been to Sodaville at a meeting of the board and report the school in good condition. Over 80 pupils and still they come.

Mr. Brock who lives in the eastern part of town received a severe kick from a horse a few days ago. He was driving down a slope, when the traces came loose, he jumped out to hook them up, when one of the horses kicked him on the hand, mashing and mangling his hand in a terrible manner. He was immediately brought to Dr. Snapp's office where his hand was dressed, and to make it all the more painful for Mr. Brock he had a few years ago had the same hand mashed in a threshing machine and two of his fingers torn off.

Some of the people who live near the western boundary of Lemati, along the river bank are terrible annoyed with ferocious wood (?) rats, not only carrying small rubbish such as is usually used by the rat family, but in this case they carry good sized sticks of wood. We find they are particularly partial to oak wood, they will carry off any good sized stick of oak when it is so they can accumulate them. Their whereabouts have been saught. But as their habits are excusibly nocternal it is hard to always find their nests. We suggest a few sticks of dynamite would be good for their nests.

The freight trains have been arriving later this week on account of heavy trains and lots of work.

Don't Go

THE WINTER APPLE IS KING.

We clip the following items from the Centralia (Ill.) daily Sentinel. As the winter apple crop there is larger than for many years, according to the argument of many people of Oregon the apples would not be worth picking, but notwithstanding there are hundreds of thousands of acres of apple orchards in that county they are bringing good prices and the land owner there who has not a winter apple orchard is a "back number." We lived in that part of Illinois and raised the best little winter apple orchard we have ever seen. At four years old we old it and the person who finally purchased sold in the next seven years over $8,000 worth of apples from the trees and then sold the eight acres of land the trees occupied for $8,000. The land was laid off in town lots two years ago, and is worth over $25.000. If we had not sold that little orchard, for the last fifteen years we would not have had to labor fifteen hours a day like a galley-slave for pauper wages publishing a country newspaper for the public and for glory. We knew when we sold that land at a ruinous price that we were parting with a little fortune, but we had to leave that cold climate or take up our immediate abode in the cemetery of that place. We should have held the orchard and went south winters to a warmer climate. But while we can see somethings we cannot see everything. We are going into the winter apple business to stay with it as long as we are so fortunate as to remain upon this mundane sphere. Smarter and better men than the editor of the LEADER have been trying over thirty years to glut the winter apple market and have succeeded in only making and finding a better market every year. Winter apple growing if properly managed in a splendid business.

Jake Grosch has picked right at 9,000 bushels of apples from his orchard. Not a bad yield.

The advice from everywhere is hang on to your apples if you can. They will reach better than $3 per barrel before Christmas.

The apples continue to come in by the dozens of wagon loads. Many a thousand dollars has been paid out this month in Centralia for apples.

The apple rush show a decided let up. From now on the price will go higher and the person who is holding his apples will double his money.

Camp Miller, near Walnut Hill, presents a lively appearance these days. Frank Miller has purchased the apples on five fine orchards near that village and has thirty men gathering and packing apples. They have a large tent on Capt. Creed's farm and make that their headquarters. Next week a second crowd of packers is to be put at work. At present they are packing about 450 barrels a day. By the way, the apples of that section are reported as the best in this section of State; extra fine.

Ashley Gazette: R. D. Baldwin, of Irvingston, is one of the men who made money by holding on to his apples, and not selling early in the season. When the season first opened for buying apples, Mr. Baldwin was offered $800 for the yield of his orchard. He held it at $1,000 and refused the offer. Later he was offered $1,000 and then $1,400, but he was holding on waiting for a raise to come. We are informed that Mr. Baldwin sold his apples for $1 a barrel in the orchard, and it is estimated that the yield will be between four and five thousand barrels.
