A LITTLE OF EVERYTHING

The funeral of E. P. Calgan, for fifteen years state comptroller of California, took place at Sacramento Sunday, under the direction of the Knights Templar and the B. P. O. E. Japanese have been debarred from citizenship by a decision of the Commissioner of Immigration at New York.

Standard Oil stocks have taken another tumble of 35 points. It has dropped from 700 in January last to

500. At this rate the "water" will soon be squeezed out of it.

The San Francisco grand jury is wringing the police officials who have been "standing in" to protect the municipal dives.

Canada will withdraw from the postal convention with the United States in May next. A new treaty will be entered into.

Thomas A. Edison, celebrating his fifty-ninth birthday, prophesied that the world would soon have flying machines, cheap automobiles and a dozen other marvelous things. "Do you think, sir," said a young lady reporter, "that the world will ever be christianized?" Mr. Edison smiled. "Not only do I think so," he said, "but I think we shall both live to see it."

A stockbroker of Pennsylvania is suing on a debt contracted for merchandise thirty-five years ago. Ordinarily, a bill that old is outlawed under

the statute of limitations, but it does not apply, it seems, when the debtor is absent from the state. The debtor, in this case, was classed as worthless, but recently a sister died, leaving him about \$1,500. The bill without interest, amounted to \$178.

Andrew Carnegie says that if he should lose all his fortune and start in again at \$1 a day, he would so fix his habits that he could save a portion of each day's earnings. It is rather trite and few will say it is not wise, but it is not as easy as it seems—this saving a little from the stipends of each day. Few do it, but those who do find a competence and means to accomplish greater things by and by.

Fearing that it may cost them millions of dollars annually in damages awarded to injured employees, leading railroads of the United States will unite in an effort to overthrow in the courts, on the ground of unconstitutionality, a law passed by the last congress entitled, "an act relating to liability of common carriers engaged in commerce between states and territories and foreign nations, to their employees," but commonly called the "employers' liability act." although confined to railroads.

A farmer recently refused an offer for a horse that looked like 30 cents. Said the wise farmer: "That horse knows just what to do when he meets an automobile. He cowers around and breaks up a dollar's worth of buggy shaft and mobby 50 cents worth of harness, and I'll bet I've collected as much as seven hundred dollars from the automobile owners. The old horse is all right."

A rumor is current in railway circles that the Southern Pacific Company will purchase the branch road from Cottage Grove to the Bohemia mining district.

Ralph Jackson, a son of Henry Jackson, the wealthy reservation Indian, was taken to Klamath Falls last week in custody of two Indian police and upon arrival there was turned over to Deputy United States Marshal G. A. Bushée of Portland. Jackson is accused of stealing a beef from another Indian and his preliminary hearing before United States Commissioner Alex. Martin, Jr., was had.

Sour Stomach

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour rising, and other symptoms of the stomach are all due to indigestion. Kodol cures indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol Dyspepsia Cure does not only cure indigestion and other stomach troubles, but it also cures all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membrane lining the stomach.

Kodol Digests What You Eat.

Mr. S. S. Ball, of Ravenswood, W. Va., says: "I was troubled with sour stomach for several years. Kodol cured me and we are now using it as much for baby."

Bottles only \$1.00. Size holding 3 1/2 ounces the best size, which sells for 50 cents.

Constipation.

Health is absolutely impossible, if constipation be present. Many serious cases of liver and kidney complaint have sprung from neglected constipation. Such a deplorable condition is unnecessary. There is a cure for it. Herbine will speedily remedy matters. C. A. Lindsey, P. M., Bronson, Va, writes, Feb. 12, 1902: "Having used Herbine I find it a fine medicine for constipation." See a bottle. Sold by Chas. Strang, Medford; Central Point Pharmacy.

FOLEY'S HONEY-BEAR
Cures Coughs, Croup, Whooping Cough, etc.

Because its made right, by a force of skilled plow experts whose equal cannot be found in any other plow factory in the world. There are many different makes of plows, each claiming to be the best, yet the fact remains that three John Deere plows are in use to one of any other kind. The John Deere Factory, the largest in the world, turns out every year more plows than any five other factories combined.

Standard of the World For Over 60 Years

The Pioneer Plow Maker, John Deere, made his first steel plow by hand from the blade of a saw in 1837. The first slab of steel rolled in the United States was rolled for the John Deere plows by William Woods, of Pittsburg, in 1848. And ever since those early days Deere Plows have shown the way and maintained the lead in this great national industry. Is it any wonder that the farmers of the world express their verdict in the familiar phrase,—"If it's a Deere—it's Right."

We make over 1000 styles of plows, each as good as it can be made,—the best that brains and perfect equipment can produce. No matter what your needs may be, we can supply them from our line.

A Delicate Hint.

"They say Miss Sharpe can convey a hint with such tact that it is impossible to take offense."
"Yes, she has quite a gift that way. The last time Mr. Staylate called there she asked him to have some slight refreshment and then brought in a plate of breakfast food."—Baltimore American.

Our existence here requires a precision so great that our minds can but feebly grasp it. Change the temperature of your bodies by but a few degrees and you die.—Boston American.
