

USE OIL FOR FUEL

WOOD IS SCARCE AND PRICES ARE ADVANCING.

Crown Paper Co. Lets Contract For Construction of Huge Reservoir For Storing Oil and nearly 20,000 Barrels Will Be Consumed Annually.

Assistant General Manager W. P. Hawley, of the Crown Paper Company, states that his company has contracted for the installation of an oil reservoir to contain from eight to ten thousand barrels. Work will be commenced without delay and it is probable that before six months elapse the Crown Paper and pulp mills will be using oil as fuel in place of wood. For several years both the Willamette Pulp and Paper Company and the Crown Paper Company have been figuring on replacing the wood burning boilers with apparatus for burning oil. A great deal of time has been spent in preliminary arrangements, which are now practically complete as regards the Crown Paper Company. The Willamette Pulp and Paper Company still has the matter under consideration and it is only a matter of a very short time, when this mill also, will be burning oil.

These changes are due in a great degree to the increasing scarcity of wood and its steady advance in price. Oil is cheaper and just as reliable.

The Crown Paper Company's new reservoir will be between the canal and the river on the north side of the mill. The excavation, filling and lining will be of concrete, and the reservoir will be covered with concrete. Earth will be piled on top of the concrete covering to a depth of three feet.

About 8000 cords of wood annually are burned by the Crown Paper Company, and with the installation of oil for fuel, from 16,000 to 20,000 barrels a year will be consumed.

LABOR DAY PICNIC.

Carpenters and Joiners Union Invite All Laboring Men to Celebrate at Gladstone.

The Carpenters Union of this city will give a Labor Day picnic at Gladstone Park September 7. The program has not yet been arranged but will consist of athletic sports and contests of various kinds and a baseball game between the members of the Carpenters' Union and the Painters' Union.

Secretary Kennedy, of the Carpenters' Union, authorizes the statement that Federal Labor Union has disbanded. He makes this statement upon the authority of A. J. Mayville, ex-president of Federal Labor Union. He extends a special invitation to the men who were members of Federal Union to participate in the picnic on Labor Day.

Increase in School Population.

County School Superintendent J. C. Zinser will soon complete his annual report to the State Superintendent. Among other information concerning the schools of the county, it will show that during the past year the school population of Clackamas County has increased from 7643 to 7777. Superintendent Zinser reports that there is an abundance of teachers in the county at the present time, whereas there was an unexpected scarcity of instructors for the public schools some districts being obliged to employ pedagogues from other counties. Explanation for this reversal of conditions is found in the fact that during the past year there have been an unusually large number of public school graduates who have taken the regular teachers examination in this county and obtained certificates.

Meeting of All Fire Companies.

Chief of the Fire Department Lawrence Ruconich has called a meeting of all the fire companies in the city to be held this evening in the city hall. The purpose of the meeting is to arrange for the division and distribution of the \$150, which was presented to the department by the Oregon City Manufacturing Company in recognition of the work of the firemen at the woolen mill fire two weeks ago, and to talk over and provide for a hose team to go to Astoria to enter the regatta races. The combined efforts of all the companies are necessary to place a first class team in the field and Chief Ruconich feels that a good team should be sent or none. The meeting will be held at 7:30 o'clock Thursday night.

LITTLE INTEREST IN CARNIVAL.

Failure of Fourth of July Celebration Seems a Damper.

Labor Day comes this year September 7 and it is a question whether Oregon City will have a street fair and carnival.

Secretary J. H. Howard, of the Federal Labor Union, has been working upon the proposition for many months. He laid preliminary plans and talked to leading business men and was promised substantial encouragement. Mr. Howard has studied the experience of other valley towns and has found that the carnivals of Ashland, Eugene, Salem and other cities were very successful. When Oregon City decided to celebrate the Fourth of July Mr. Howard let the street fair go by until after the Fourth. He now faces the fact that the celebration was such an utter frost that most of the business men are disgusted with all kinds of celebrations, and are slow to see the advantage of the carnival.

Huntley Brothers favor a carnival and so do other merchants but the great majority of them do not, and Mr. Howard is undecided whether to proceed. He is satisfied that the carnival would be successful from a financial point of view but the cooperation of the Oregon City business men is the first requisite for its success.

Mr. Howard says that a street fair and carnival could be opened in this city for \$500 and that he would quickly go ahead if he had it. He argues that we are close to Portland and could draw largely from that city for the attendance. Only a little over a month is left to arrange everything in connection with a carnival and unless something is done at once the whole scheme will go by the board.

GRANGE ENTERTAINMENT.

Nearly 200 People Witnessed a Good Program at Maple Lane.

MAPLE LANE, July 27.—(Special.)—Saturday evening, July 18, a few of the public spirited citizens of this place, assisted by a few outsiders, gave an entertainment at the Grange Hall for the benefit of the order. There were about 180 persons present and a very enjoyable time was had by all. Every number on the program was well played from start to finish. "Gems of Patriotism," which was played by 17 little girls, under the management of Mrs. Olive A. Swallow, was beautifully played, considering the tender age of some of the little ladies, and the very short time they had to practice it certainly showed remarkable ability of Mrs. Swallow in the management of children.

The last number, "The Sleeping Car," also under the management of Mrs. Swallow, was a splendid success. The acting of Mrs. Swallow and Messrs. Lewis and Beard was simply grand and the crowd fairly roared with laughter. Everyone present was highly pleased with the manner in which they were entertained. Although it was a great undertaking, Mrs. Swallow managed it splendidly.
