The Colville Mines.

The furor concerning these mines has to some extent spent itself, yet it rages fiercely yet ; many are still go-

ing and preparing to go there. We do not think that the intelligence so far recieved from that quarter, warrants either the excitement witnessed or the expectations entertained. All the facts we have from there are that gold was found upon two small bars of a small river-Pend d'Orielle. That paid very well well, by any means. "From one to twenty-five dollars per day" are not very rich diggings. The mines in Southern Oregon, have been and are paying better than that.

But there is no postive evidence that there is any gold up there beyond the two bars already worked. True, it is presumed that there must be more there. and it is supposed by some that these will prove as extensive and rich as those of California, but presumption and supposition may fair And certainly they do not warrant 5000, 3000, or 1000 men in going there toprospect If the mines are extensive, nothing is known of it now; five times as many are already on their way there as are necessary to prospect the country, and it appears to us the part of wisdom for those not yet gone, to await the result of their explorations. It is not at all improbable that the result may be-"no paying diggings there,"—and the return of those who have gone, minus rate, "delays are not dangerous," and little can be lost, while much may be made by "holding on." So we say remain where you are until you get direct and reliable information from the mines, and then you may not care about going !-- Statesman.

SHALL FRY POLITICIANS .- These poor devils get the following severe "dab" from the editor of the Sierra Cittzen, Downieville, Cal., in a recent issue of that excellent paper :

"PARTY SPIRIT .-- We are utterly disgusted, sick, nauseated, with the everlasting political clap-trap rung in our ears everyday, just as though the country were on the eve of revolution. The

people have gone stark crazy on the subject of politics. Small fry demagogges, who manage to keep soul and body together without work, have kept up their infernal din in the ears of honest people until they are going mad too -neglecting their business, quarreling with their friends, and stirring animosity among quiet, honest-hearted and industrious prople, who would otherwise be content to cast their votes quietly for their favorite candidates, and go about their business, conscious that they had enjoyed the dearest privilege of freemen.

ANOTHER PIONEER GONE.—Capt. Joseph G L. Fulsom died at the Mission of San Jose on the 19th July. Capt. Fulsom was one of the American pioneers in California. He graduated at West Point in 1840, and in 1846 came to California in Col. Stevenson's regiment as quartermaster, with the rank of Captain, in which capacity he served for three years. He was the first collector for the Port of San Francisco, and his name is identified with the progress and history of our city, as well as with the growth and prosperity of the whole State. In him San Francisco has lost a public-spirited and useful citizen-society a good man. -Golden Era.
