 Stage North, Arrives daily 9 o'clock P. M.  
 " " Departs " 10 " " P. M.  
 Stage South, Arrives " 10 " " P. M.  
 " " Departs " 10 " " P. M.  
 Kerby Stage, arrives Wednesday and Saturday 4 o'clock P. M. departs Monday and Thursday 4 o'clock A. M.

## Religious Notices.

Rev. M. A. Williams will preach in the Methodist Church this evening, also to-morrow morning at 11 o'clock; after sermon, Communion services will be held.

**NEW GOODS.**—Read Sachs Bro.'s new advertisement, in to-day's issue; they claim to have the only new goods in the market and are selling them at greatly reduced rates.

**JUST ARRIVED.**—Anton Ullmann, advertiser's new Stock of Cigars, Tobacco, Candles, Nuts and Stationery, just received from San Francisco. Anton is a nice boy—patronize him.

**FINE HORSES.**—Plymale & Manning talk very reasonably—they claim to have the best horses and buggies, in the county, and are always ready to hitch up, when the boys want to ride.

**PLEASANT RIDE.**—Comstock & Cawley are still engaged in the livery business. If you want a pleasant ride some fine dry, jump into one of their splendid Concord buggies and pull on the lines.

**HILL OF SCIENCE.**—Miss Ida Beach commenced last Monday morning, to assist the pupils of School District, No. 13, up the steep and rugged hill of Science. May she be successful; her vocation is a noble one.

**VERY LOW.**—A. Fisher & Bro. are selling goods very low, we recommend those desiring goods in their line, to give them a call—they advertise to-day, that they are bound to sell cheaper than any house in town.

**SEND IN YOUR NAMES.**—We send out a great many extra papers this week to different friends throughout the town and country. Those wishing to subscribe will please send in their names at once, as we are anxious to know what stock of paper we will need.

**ODD FELLOWS PARTY.**—The Ball and Supper given at Vite Shutz Hall, last Monday evening by the Odd Fellows of this place was a splendid affair. Every thing passed off in "Shape." Dancing was kept up until 1 o'clock, when all adjourned to meet at Mr. L. H. Ross' Monday evening, May 3rd, when on goes the dance.

**CAN'T BE SURPASSED.**—Malina Gilroy still keeps the Franco American Restaurant on the corner of Main and Oregon Sts., she has a fine article of wine made from the grape, grown on the soil of France, her native country, and her diners as regards the variety of viands are not surpassed in Oregon. She is intelligent, entertaining and accomodate, and deserves patronage.

**GRIST MILL.**—We found it rumored on the street the past week that a joint stock company, is about to be organized for the purpose of building a Grist Mill, at this place, to be propelled by steam. We hope the report is true, for such an institution is badly needed. Jacksonville is the grand market for Southern Oregon, and where farmers can dispose of their grain in the place in a community to build Grist Mills.

**MAY PARTY.**—The Sabbath School children as well as those attending the District School hold an old fashioned May day picnic in Bybee's Grove Monday. Many times have we when a boy assisted in erecting a Maypole, decorated it with evergreens, and scattered sweet fragrant flowers, on the lawn on which the tiny feet of the May Queen trod. Let every mother take her little ones into the grove, where they can participate in the various sports and pleasures that await them.

**QUARTZ PROSPECTING.**—Owing to the failure of our placer mines, this season from want of water, miners are now beginning to turn their attention to quartz, a branch of prospecting, yet in its infancy, and but poorly understood in Southern Oregon. There has been capital enough already wasted than wasted by various companies, through mismanagement and injudicious expenditure of labor, to have fully tested ten or twelve of our best leads; and that there are a number of good paying ledges within this county, no one possessed of a thorough knowledge of quartz mining will be so foolish as to doubt. The timber gulch lead is now furnishing the most flattering prospects, simply because its owners are applying the true test, as proven by all reliable experience—that of going down on the lead.

Scientific prospectors abroad, will hardly credit the assertion, that Gold Hill—fabulously and unprecedentedly rich as it was—was never sunk on to a depth exceeding 50 feet. The proprietors now offer one half the lead to any person or company, that will put a shaft down 200 feet on the same. A better chance to make a big strike, it appears to us, could not be offered.

The Fowler lead, at Steamboat City, has paid big dividends in the past, and would likely do so again if properly worked. The Devanport, Hicks and the Blackwell, ditto. So let prospecting be pushed with vigor the coming summer.

**DESERVING OF PATRONAGE.**—Every person who desires to see this portion of the State prosper should be willing to contribute his support, let it be ever so little, toward the accomplishment of that end.

Every year thousands of dollars are taken from our mines, and a large portion of it sent to San Francisco, and invested in woolen goods of all kinds, to be worn out in this community. The Rogue River Woolen Manufacturing Co. propose to supply this demand and retain that large amount of Capital among us. Their machinery is entirely new of the latest improved pattern, and their manufactured cloths, far surpass as regards durability, imported cloths. The farmers can purchase these articles cheaper than they can eastern make of goods, besides, by wearing these cloths, create a home market for their wool, and save the expense and trouble of shipment.

We commend these thoughts to your serious consideration.

**IMPROVEMENTS.**—We notice notwithstanding the cry of dull times, numerous improvements being made which greatly beautifies the appearance of our village. J. D. Fay and Ek-Sheriff Owens, have built a fine picket fence in front of their residences on California street. C. C. Beckman is having his Banking House painted and made to look like a new building. James T. Glenn has been making improvements in front of the old City Hotel on Oregon street. Those rough clap-board, have been taken up and hauled off, and the sidewalk paved with brick. Street Commissioner, Phely, is doing excellent work on the roads leading to and from town, as well as grading and graveling the most traveled Streets.

We feel pleased to notice these improvements as regards the roads and streets, as anything that tends to facilitate the free and easy locomotion of our people, is commendable.

**JACKSONVILLE INVENTION.**—We have been shown the model of a design for fastening the tires of carriages and wagon wheels, invented by Dr. E. H. Groenman of this place, which bids fair to be of great advantage to teamsters and Livermen, in this County, of long dry seasons. The object of the invention is to secure the tires to the felloes and at the same time, to prevent the tires expanding, and the felloes contracting independent of each other, and thereby preventing the spokes, driving out of the hub, so common in dry counties.

The Dr. is procuring the necessary papers for obtaining a patent.

**PERS NAL.**—Charles W. Savage, Assistant U. S. Internal Revenue Assessor, for this district, returned yesterday from a trip through Josephine county, on business connected with his office.

He reports dull times at present, throughout the County, though the people generally are hopeful of better days to come.

**SPLENDID.**—L. Horne, Proprietor of the U. S. Hotel, is doing a splendid business. He spreads his table, with the best the market affords, and is always around, ready to attend to the wants of his customers. He gives a party, Monday evening, May 3rd—Read his advertisement in another column.

**Jacksonville Market Prices.**
