"A Fair Proposition But Nothing Doing"

Under the above heading the Santa Ana (Cal.) Register tells of an experience of another publication in its section of the state. The facts furnish their own commentary.

The wind bloweth where it listeth:

And no answer cometh:

Neither cometh the wood or the corn or the 'taters or the eggs or the bacon:

Some days ago, a good, liberal, loyal, generous, broad-minded citizen of one of the "cow counties" wrote the local weekly paper that he wanted to subscribe for it during 1919 and get the county news, and would send in his subscription if the paper would be sent at the OLD PRICE (the price has of necessity been advanced from \$1.00 a year to \$1.50.)

"We immediately wrote him," says the editor, "we would accept his proposition—provided he would bring us a cord of wood, a barrel of corn, a bushel of sweet potatoes, a basket of eggs, or a side of bacon at the price he got for these commodities five or six years ago, when there was some profit in publishing a newspaper at \$1.00 a year.

"Seven long days have passed—and no wood, no corn, no 'taters, no eggs, no bacon.

"He couldn't afford to do it. Yet, he was generous enough to send him the paper for \$1.00 and make him a present of 50 cents. Of all the 33,285 people in the county this kindly disposed individual is the only one with gall enough to ask us to send the paper at the old price—and we do not believe there is another in the whole county."

Every user of a telephone who stops to think knows that he would be paying an inadequate rate now if he was not paying substantially more than he was before the war.
