FRIDAY, APRIL 14, 1905.

Medford now has an enterprising Commercial club which seems to be the kind that says little but does things.

The special edition of the Ashland Tribune of April 1st is certainly "A thing of beauty and a joy forever." It contains a complete write-up of that beautiful little city with halftone photos of the town, some of the business houses and many of the prominent business men. This edition of the Tribune is one of which the management of that paper can feel justly proud. The people of Ashland have in the Tribune a good, live, hustling paper, up-to-date in every respect.

"If there is any chance to boom business, boom it. Don't pull a long face and look as though you had a sour stomach. Hold up your hands, smile and look for better things. Hide your little hammer, and try to speak well of others, no matter how small you really know yourself to be. When a stranger drops in jolly him, tell him this is the greatest town on earth, and it is. Don't discourage him by speaking ill of your neighbors. Lead him to believe that he has at last struck a place where white people live. Don't knock. Help yourself along by becoming popular, and push your friends with you. It's dead easy. Be a good fellow, and soon you will have a procession of followers. No man ever helped himself knocking other people down in character or business. No man ever got rich by trying to make others believe he was the only man in town who knew anything. You can't climb the ladder of success by treading on other people's corns. Keep off the corns and don't knock.

Quite a Pick-up.

About twelve years ago D. J. S. Pearce, who operates the Pearce & Son's placer mine on Poorman's creek, washed out \$60.00 in gold from a single pan. He then informed the boys that when any of them beat that record he would present him with a brand new hat, and this week his son won the hat by getting \$68.00 from a single pan. The season has been a poor one for them yet they have succeeded in picking up over \$600.00 in coarse gold, yet have not made a clean-up.

Mr. Pearce startled the editor by producing a \$67. nugget that he picked up Friday on their diggings which seem to produce a good many of these big fellows. The nugget is a beauty and as editors do not often see much of that stuff in a bunch, the sight came near causing nervous prostration in our editorial sanctum. Pearce & Sons have

over 200 acres in their placer property on Poorman's creek and it is nearly all good ground.

Medford Wins a Game.

Quite a good sized crowd congregated at the ball park last Sunday afternoon to witness the fourth game this season between Medford and Jacksonville. The wind blew cold from the north-west and the crowd in the grandstand soon thinned down to a few of the faithful who remained to see it out. It was a close and exciting game for about six innings when the visitors took a good lead and managed to keep it, winning out on a score of 5 to 11. Miles pitched the game for Medford and but 6 hits were made off his delivery while 13 were made by the visitors off Lester. However, it was a good game although we lost.

Lewis and Clark Centennial.

International scope is assured to the Lewis and Clark Centennial Exposition to be held at Portland, Oregon, from June 1st to October 15, 1905, by President Roosevelt's approval of the act of Congress making an appropriation for the Exposition, and his invitation to foreign countries to participate Portland's Exposition will represent a total outlay of over \$5,000,000. Though covering 405 acres of land and natural lake, it will be compact in form, and the average person will be able to see and comprehend it all in a few days at moderate cost. The cream of the foreign and domestic exhibits to be made at St. Louis this year will be transferred to Portland at the close of the Louisiana Purchase Exposition. The United States exhibit will be moved entire to Portland and installed in building to be specially erected. This exhibit will be worth \$800,000. In addition Portland will have many features which will not be seen at St. Louis, such as exhibit demonstrating the life, customs and industries of China, Japan, Hawaii, Siberia, Russia, Alaska, Australia, New Zealand, the Philippines and India.

The Lewis and Clark Centennial will be the first international exposition under Government patronage ever held on the Pacific Coast. It will be in every way a Western exposition. The railroads will make low rates from Missouri and Mississippi river points to Portland, and exceptionally low rates will be in effect between Portland and the Rocky Mountain region.

CURED CONSUMPTION.

Mrs. B. W. Evans, Clearwater, Kan. writes, My husband lay sick for three months. The doctors said he had quick consumption. We procured a bottle of Ballard's Horehound Syrup, and it cured him.
